TRI-POWER MEET HOLDS ATTENTION

By the Associated Press.
A proposal that France, Italy and
Great Britain join forces to "frighten"
the remaining reich was reported un-
der consideration in Paris yesterday
as Europe's attention focused on the
tripowered conference at Stresa
April 11.

Foreign Minister Pierre Laval, the
Paris reports said, will seek mutual
assistance pacts with Russia and
Czechoslovakia if Italy and Great
Britain fail to fall in with his plan.
The British cabinet awaited Cap-
tain Anthony Eden's return, expected
tomorrow, to draft compromise secu-
rity proposals Foreign Secretary Simon
will present.

Eden, after extraordinarily brief
and cordial conversations with Czech-
oslovak statesman at Praha, was "in-
disposed" when he arrived at Cologne.
Authoritative sources at Addis
Ababa, meanwhile, said an Ethiopian
army numbering 100,000 men, well
equipped, was moving to the borders
of Eritrea and Italian Somaliland.

LONDON—Eden was expected to
confer with part of the cabinet soon
after his arrival about midday.
PARIS—Foreign Minister Benes
for Eden was marked by the
news of his assertion that his continen-
tal policy was based on "the main-
tenance of peace." An official com-
munique said the conference were in
agreement on this principle.

PARIS—French officials said
Laval's proposal would "virtually
pledge adherents to his plan to armed
adversity against an aggressor."
BERLIN—A foreign office spokes-
man reiterated Germany's "determi-
nation to join any complicate security
system."

VIENNA—Austria's decision to in-
crease her army will not be submitted
to the Stresa conference, an Austrian
government spokesman said, as the
cabinet considered ways of carrying
out the rearmament program.

ADDIS ABABA—The Ethiopian
government emphasized that the dis-
patch of troops to the Italian frontier
was purely "precautionary."
BERNE—The federal council gave
new evidence of its determination to
exhaust every possibility of diplo-
matic action to force Germany to re-
turn an anti-Nazi kidnapped on Swiss
soil, indicating being that recourse
might be had to the German-Swiss
arbitration treaty.

PARIS MAY BACK UNION:
RETURN OF EDEN AWAITED
LONDON, April 4.—A busy week
faced the British cabinet tonight as
it awaited Captain Anthony Eden's
return from his European peace tour
to begin drafting compromise security
proposals to be presented at Stresa
next Thursday.

The young lord privy seal, "dis-
posed" at Cologne, Germany, on his
tiring trip to Berlin, Moscow, Warsaw
and Praha, was expected to reach Lon-
don tomorrow at midday and go into
conference with part of the cabinet
shortly afterwards.

His reports will provide the basis
for the proposals Britain will offer
France and Italy which, officials here
hope, will allow all European nations
to meet on a common basis.

France May Probe German Kidnaping

BERNE, Switzerland, April 4.—
(AP)—France prepared today to take
a hand in the investigation into the
alleged German kidnaping of Ber-
thold Jacob, anti-Nazi journalist.
Inspector Guillaume of the Paris
police, was expected to arrive short-
ly to consult with Swiss police on
possible ramifications of an alleged
plot in France in line with
Swiss authorities' contention that
the kidnaping of Jacob was original-
ly planned with Strasbourg as the
scene.

BANDIT QUARTET ROBS PASSENGERS ON CRACK TRAIN

KANKAKEE, Ill., April 4.—(AP)—
Operating in wild west fashion, four
men, three masked, tonight systemat-
ically robbed two-score passengers on
an Illinois fast mail and passenger
train, shot and wounded one man, and
escaped with \$843 in cash.

The robbers apparently boarded the
train, the Louisiana, southbound
for Louisiana resort points, as it
stopped either at Sixty-third street in
Chicago or in suburban Kensington.
They posed as passengers until the
train was well under way and then,
donning masks and cowering the train
crew, went through four coaches, tak-
ing valuables. They made no at-
tempt to enter the mail cars.

George Kerr, Chicago salesman,
was shot in the hip by the sole un-
masked robber, when he offered re-
sistance, grappling for another de-
pendable weapon.

He was removed to St. Mary's hos-
pital here for treatment after the
train halted to report the holdup.
The men escaped as the train
slowly to a stop. Sheriff John Stack
said apparently confederates awaited
the bandit quartet here to aid them
in the escape. He organized posse
immediately to scour the countryside.

Sheriffs of surrounding counties
were notified and deputies and state
police swarmed over the highways in
the search.
Stack said passengers told him that
each of the gunmen were armed with
two guns.

The robbers took the porter and
brakeman with them on the tour of
the cars—the buffet car and three
sleepers. All the cars were well filled.
Special agents of the railroad were
notified in Chicago and co-operated
with sheriffs' officers in the investi-
gation and search.

The robbers stationed one of their
number with a drawn pistol at the
front end of the club car to insure

Dillinger's Gun Real, Not Wood, Agents Find

FORT WAYNE, Ind., April 4.—
(AP)—Department of Justice operatives
reported today that they had found
the late John Dillinger carried a
blue steel automatic pistol—not a
"wooden gun"—when he escaped from
the Crown Point, Ind., jail on March
3, 1934, and that he was given as-
sistance from outside.

The federal agents reported tonight
to United States Attorney James R.
Fleming, of northern Indiana dis-
trict, on their long investigation into
the sensational break of the desperado
who became the nation's No. 1 public
enemy before he was shot down on a
Chicago street by officers on July 22,
1934.

Fleming announced the agents re-
ported no facts upon which criminal
charges could be based. La county
officials were criticized in many quar-
ters after Dillinger and Herbert
Youngblood, once prisoner, fled their
"escape-proof" jail.

ITALY TO MOBILIZE
THOUSANDS MORE
ROME, April 4.—(AP)—Notices
for the mobilization of tens of thousands
of fascists who have volunteered for
service in Africa were sent out today.
At the same time the steamship
Comp. Biancamano left Messina for
Massaua, Eritrea, crowded with regu-
lar troops to reinforce the 31,000
already sent to east Africa.

The fascists mobilized will be in-
corporated in five divisions totaling
about 40,000 men.
Notices sent them requires them to
report before the end of the week at
the headquarters of their respective
legions.

CHARLES BARRETT, FARMERS' LEADER, DIES AT UNION CITY

Georgian, Prominent in
Agricultural Affairs of
Nation, Succumbs After
Lengthy Illness.

Charles Simon Barrett, prominent
Georgian and champion of the inter-
ests of the farmers of the United
States, died Thursday at his home at
Union City, Ga., following an illness
of a year which had confined him to
his home for the last six months. He
was 60 years old.

Born on a farm in Pike county,
Georgia, on January 28, 1866, Mr.
Barrett devoted his entire life to ag-
riculture or pursuits associated with
agriculture. He was the son of
Thomas Jefferson Barrett and Mrs.
Minerva Slade Barrett, of Pike coun-
ty. His father was one of the largest
landowners in middle Georgia and
served several times in the general
assembly as representative of his
county.

He was educated in the country
schools of Georgia and in the normal
schools at Bowling Green, Ky., Le-
banon, Ohio, and Valparaiso, Ind.
On November 5, 1891, he married
Miss Alma Rucker, of Barnesville,
Ga., who survives him. They were
the parents of six sons, who survive.
The sons are Paul, Charles S. and
John Barrett, all of Union City; How-
ell Slade Barrett, of College Park, who
is connected with the state depart-
ment of education; Leland Barrett,
of Jacksonville, and Gaines Barrett,
of Washington, D. C.

In addition to his wife and sons,
he is survived by three sisters, Mrs.
Asbury Lifsey, of Macon; Mrs. Zenie
Barrett Jolly, of West Palm Beach,
and Mrs. Howard Collier, of Monte-
zuma, Ga., and two brothers, Curtis
Barrett, of St. Petersburg, Fla., and
Clifton Barrett, of Charlotte, N. C.

Recognized as one of the leading
authorities on agricultural questions,
Mr. Barrett was a well known coun-
selor and the farmers of the nation with

ETHIOPIA MASSES TROOPS AT BORDER

100,000 Well-Equipped
Natives Move Toward
Italian Possession.

ADDIS ABABA, April 4.—(AP)—
Ethiopian leaders were authorized
reported moving 100,000 well-equi-
ped troops toward Eritrea and
Italian Somaliland, where Italy has
been massing troops during re-
cent weeks.

At the same time Emperor Haile
Selassie's government again declared
that military movements are purely
"precautionary."
Authoritative sources said the
Ethiopian army is equipped with the
latest types of rifles and plentifully
supplied with machine guns, ammu-
nition and other stores.

Formerly Ethiopian soldiers went
into action equipped with spears and
sabers, leaving to their women the
task of accumulating food supplies
and delivering them to the troops.
The primitive form of military or-
ganization has been superseded, how-
ever, in the face of the tension created
by the Italo-Ethiopian border contro-
versy.

Ethiopia's army was said to be of-
ficed by native chieftains, even
though some European experts are
here to advise this government in
aviation and other branches of the
armed forces.

Sharp Gain Recorded In City Collections

City collections for the first three
months of 1935 exceeded those of the
same period of 1934 by \$30,517.13,
according to a report filed Thursday
by R. Graham West, city comptroller.
The 1935 receipts for the first quar-
ter were listed at \$2,312,307.58, as
against \$1,781,790.75 for the same
period of 1934.

Among the items showing increases
this year were water receipts, \$436,-
251.90 as against \$423,114.77 in 1934;
recorders' court fines, \$40,222.25 in
1935 as compared to \$28,702.75 in
1934; insurance returns, \$33,447.94
for 1935 as against \$30,537.15 in 1934.

vocate story writer, ended Thursday in a \$100,000 verdict for the plaintiff

wife. Associated Press photo.

CHICAGO, April 4.—(AP)—Fresh
efforts to outlaw alienation of affec-
tions suits were launched today as
Mrs. Helen Bedford-Jones was awarded

STATE INCOME TAX IS HIKED \$180,000

Collections Up to April 1
Show Sharp Gain Over
Last Year.

An increase of \$180,000 in collec-
tion of state income taxes in Georgia
up to April 1, this year, over collec-
tions for the same period last year,
was announced Thursday by Paul H.
Doyal, chairman of the state revenue
commission.

The collections total \$915,000, as
against \$635,000 a year ago.
These figures represent the first in-
stallments due March 15. Under the
Georgia law, a person or firm may
pay one-third of the income tax by
March 15, the second third by June
1 and the other by September 1.

Doyal attributed the increase to im-
proved conditions. He said it showed
that salaries had been raised, the in-
come of corporations had increased,
and that dividends were being paid.
"There are two reasons which oc-
casioned increases in collection of in-
come taxes," he continued. "One is
improved conditions and the other is
change in the law so as to bring in
more money."

Total collections for last year were
73 per cent better than those for
1933. The first installment of \$815,-
000 this year represents about 40 per
cent of the total that will be paid
into the state.

From this year's collections \$750,-
000 have been deposited and checks
amount to about \$65,000 are still in
the office of the commission.
Doyal said he had had numerous
inquiries as to why checks had not
been cleared in the banks.

"We changed our system of record-
ing income tax payments in order to
obtain more accuracy. We list
amounts of the checks in our office
before the checks are deposited. A
good many of them have not cleared

Relief Head Says Georgia Should Help Own Schools

WASHINGTON, April 4.—(AP)—
Harry L. Hopkins, Relief Administra-
tor, said today he thought "it would
be a good idea if the state of Georgia
began to think of its own school chil-
dren a little bit."
This was his answer to a question
from newspapermen whether action
had been taken on that state's request
for funds to keep rural schools open.
The Georgia legislature, Hopkins
said, had not done anything to remedy
the situation.

MAN, WOMAN DIE TOGETHER IN CAR FILLED WITH GAS

St. Louis Salesman and
Unidentified Companion
Found in Auto Near
Federal Prison.

A man identified as Chester L.
Heflinger, 38, St. Louis paint sales-
man, and an unidentified, well-dress-
ed young woman were found dead or
in dying condition in a closed, locked
and gas-filled coupe in the woods off
McDonough road, near the federal
prison, early Thursday night.

A seven-foot length of garden hose
was coiled to the exhaust pipe of the
automobile and was extended to the
car through a rear window and the
space around the hose stuffed with a
towel.

Children searching for a lost cow
saw the automobile parked in the
woods, and watching it for several
minutes became alarmed when they
did not see the occupants move.
They ran and notified a neighbor,
who telephoned county police.

Woman Still Alive.
Police Officer A. W. Gilbert and W. C.
Tumlin reported that when they re-
ached the automobile they found the
car locked. Summoning a Harry G.
Poole ambulance, they broke in the
glass door of the automobile and
found Heflinger dead. The woman was
unconscious, but was still alive. She
was rushed to Georgia Baptist
hospital, but was pronounced dead
upon arrival.

Heflinger was identified by tele-
grams found in his pocket. Harry G.
Poole Jr., notified Heflinger's wife
in St. Louis by long-distance tele-
phone. He was the father of a 19-
year-old son and was a salesman for
the Steel-cote Company, of St. Louis,
traveling in the southern states. His
relatives in St. Louis were unable to
identify the woman companion.

Birmingham Search.
The woman, who was well-dressed
and wore distinctive, but not costly
jewelry, was believed to have come to
Atlanta from Birmingham and a
search was being made in Birming-
ham Thursday night for a woman who
fitted the dead woman's description.

COX SCORES NRA AS VICIOUS, DICTIC

Launches Attack as Case
Testing Constitutional-
ity Is Withdrawn.

By GLADSTONE WILLIAMS.
WASHINGTON, April 4.—(AP)—
Refusal of the government to prosecute
Belcher, a case before the
United States supreme court led Rep-
resentative Eugene Cox, of Georgia,
today to launch a vicious attack on
the NRA from the floor of the house.

In a curt but pointed remarks the
Georgian denounced the whole purport
of the National Recovery Act and
termed it the "worst blunder of the
century."

Meanwhile the administration moved
suddenly today to put up a new
case for supreme court determination.
The move by the Justice Depart-
ment was made with an air of urgen-
cy. It evidenced a desire to get a
decision by the present term of the
court before the NRA act expires on
June 1.

In a curt but pointed remarks the
Georgian denounced the whole purport
of the National Recovery Act and
termed it the "worst blunder of the
century."

The government picked the Schechter
poultry case—involving wages, hour
and sales provisions of the NRA code—as
the strongest case it could find.
The high court has twice been con-
cerned in recent years with operations
of the New York city poultry market com-
mission.

At the time Representative Cox ob-
tained recognition from the chair the
lower chamber had under considera-
tion a bill which aimed to prevent
protestors in time of war. He
spoke for only a few minutes, but he
aroused an otherwise listless house
because of his forthright manner of
speaking.

The lack of governmental action in
the Belcher case, which aroused the
Georgian's ire, caused, it is said, the
recent resignation of a solicitor-gen-
eral of the United States and has, ac-
cording to some, enhanced irritation
of people with the effectiveness of
NRA codes and regulations.

HOUSE EXPECTED TO APPROVE BAN ON WAR PROFITS

Vigorous Drive Started
To Eliminate Possibility
of Labor Conscription
Under Measure.

WASHINGTON, April 4.—(AP)—
A vigorous drive to eliminate all pos-
sibility of the conscription of labor
under the McSwain anti-war profiteer-
ing bill developed tonight in the
house as it approached a vote which
promised approval of the measure.

The senate munitions committee,
meanwhile, heard a shipbuilder's as-
sertion that where there was a choice
of giving naval construction to private
yards or government yards, Herbert
Hoover would "yield" to the former
"only if there is an advantage to be
gained in the way of political trad-
ing."

A day's debate, slimly attended, to-
night brought the house to the point
of considering amendments to the
McSwain measure, foremost among which
was one by Chairman Cawley, of the
labor committee, who disputed the
contention of its author that labor
Bill Called Hopeless.

Advocates of a stronger measure to
prevent war-time profiteering such as
the drastic tax plan proposed by the
"could not be drafted" under the bill.
The measure centers on a price "ceil-
ing" plan to prevent huge profits in
war-time necessities. Opponents con-
centrated upon a provision which
proposed a loss of 10 per cent to be
committed for thorough revision.

The day also saw the beginning of
the "down the hatch" measure by
Chairman McSwain, democrat, South
Carolina, of the military committee.
It was a bill proposing that a depart-
ment of aeronautics be established,
combining the "army air corps" and
commercial aviation under one head,
Jimmy Doolittle, famous flyer, urged
its approval.

In the house debate, Cawley in-
terrupted a speech by Representative
Dirksen, republican, Illinois, to point
out language in the pending measure
authorizing the president to com-
mandeer the services of the "unorgani-
zed militia." He interpreted this as
meaning every man within the mili-
tary service age range.

He also pointed to the bill's pro-
vision freezing prices and compensa-
tion at a pre-war declaration level as
meaning "that if a worker should ask
a raise of 10 cents a week he would
be subject to a \$100,000 fine and a
year's imprisonment."

Proponents of the measure said it
laid "down the hatch" the policy
that property is more sacred than
human lives, and contended it was
beyond the military committee's pow-
ers to make such a drastic change in
heavy war-time taxation upon big in-
come in line with the munitions com-
mittee plan. Such proposals, they ar-
gued, traditionally must originate with
the house ways and means committee.

McSwain also declared that after
the approval of his bill he would in-
stantly introduce a bill to amend the
McSwain measure by the ways and means
committee.

ing of a letter from Robert W. Ma-
dole, Washington representative of the

ident, Joseph W. Powell, dated De-

At that time contracts for several
towers were being held up as an
example of profiteering.

GARNER, ROBINSON PACIFY SOLONS ON DIFFERENCES

25 Per Cent of Cost of
State Projects Now
Must Go to Direct La-
bors With F. D. R. De-
termining Factors.

EMERGENCY CLAUSE INSERTED FOR CCC

WASHINGTON, April 4.—(AP)—
Early final enactment of the long-de-
layed \$4,880,000,000 work relief bill
was assured tonight after the Roose-
velt administration late today won
what labor leaders declared was the
big end of a compromise on the
thorny labor cost amendment.

The break in the week's deadlock
came at a suddenly called meeting of
congressional conferees that lasted
only a few minutes.

An agreement was reached on the
much-mooted provision "providing
that 25 per cent of the costs of each
PWA state project go for labor. The
president, however, was authorized to
determine just now much was spent
for labor, direct or indirect.

Immediately after the conference,
Speaker Byrnes made plans to bring
the conference report up in the house
for action "the first thing tomorrow"
with the view to sending it to the
senate for adoption before the week-
end. He said there was little doubt
that the house would accept the com-
promise.

Pressure is to be put on both
branches to speed final passage in or-
der to make unneeded funds avail-
able for relief in April and to carry
on the \$500,000,000 (tentative) work
which legally expired March 31.

Democratic leaders—who now have
 wrestled with the bill for 74 days—
hope to have the bill passed in time
to place to President Roosevelt for his
signature. He is fishing off the Flori-
da coast.

Harold C. Hopkins, relief adminis-
trator, said today, however, that his
agency had enough money for the re-
mainder of the week and possibly the
first half of next week.

Leaders were confident when nar-
rows between the conferees began dur-
ing the day that an accord would be
reached before midnight. They de-
clined to make a statement until the
word was that they were getting
"clearer and closer together."

Center of Rwp.
The row centered on the proposal
favored by Senator Glass, democrat,
Virginia, head of the senate group,
which would provide that 33-1/3 per
cent of the cost of each PWA project
be set aside for loans and grants to
states must be spent for "direct" la-
bor.

Secretary Ickes balked at accepting
this. He said it would involve no
end of delay and trouble. The house
group stood by the president.

The text of the labor clause finally
adopted, which struck out the refer-
ence to "direct" labor, was:
"Loans and grants or both for pro-
jects of states, territories, possessions,
including subdivisions and agencies
thereof, municipalities and the Dis-
trict of Columbia, and self-liquidating
projects of public bodies thereof,
in the determination of the presi-
dent, not less than 25 per cent
of the loan or grant or the aggregate
thereof, is to be expended for work
under such particular project, \$500,-
000,000."

Privately, several senators and rep-
resentatives contended that this would
impose few limitations on the expen-
diture of the fund since 25 per cent
of the money probably would go to

ADOPTION OF BUDGET

WANTS FOREST BOARD

The quarterly budget for the state department of forestry and geology is to be adopted at a meeting of the forestry commission next Tuesday.

B. M. Lufburrow, state forester, announced Thursday that the commission would meet in the office of Governor Talmadge, who is chairman of the board.

The commission will discuss bids for concessions at three state parks

recently completed in Georgia. They are the Vogel park in Union county at Neal Gap, Indian Springs park, which has historical significance and the Alexander H. Stephens park at Crawfordville. The latter is a monumental park while the one in Union county is purely recreational.

Lufburrow said a report would also be turned in on activities of the COO camps in forestry and park work.

Play certainty against chance!
Don't make the mistake of assum-
ing you will not be killed or injured
in the accident wave that is sweeping
the land. Whether you live in city
or town or country, the peril hangs

over your head and none know when
disaster will strike.
The insurance offered you through
The Atlanta Constitution is issued by
the North American Accident Insur-
ance Company, of Chicago, which com-

pany has already paid Constitution
subscribers over \$300,000. The insur-
ance is offered to subscribers of the
daily and Sunday Constitution and
immediate dependent members of the
subscriber's family between the ages

tion fee of 20c with application
and 10c per month thereafter in ad-
dition to the subscription price, or
\$1.00 each per policy per year in ad-
vance to subscribers who live in At-

lanta and suburbs where we have
carrier delivery. Out-of-town subscrib-
ers can have this insurance by paying
\$1.00 per policy per year in advance.
This insurance offered through The
Constitution provides for the payment
of sums ranging downward from \$10-
000 for travel, \$1,000 for auto and
pedestrian deaths resulting from cer-
tain specified accidents, heavy sums
for permanent injuries and \$10 week-
ly indemnity for total disability re-
sulting from accidents set forth in

the policy, which is at the rate of
\$43.33 per month.
In sending application for insur-
ance, the applicant must state name
in full, give age and occupation and
if beneficiary is desired the full
Christian name of beneficiary must
be given and relationship of same to
the insured.

Judge James C. Davis, of Stone Mountain circuit, will be permanent judge in Fulton superior court as long as an emergency division is necessary. It was announced Thursday by Judge John D. Humphries, senior judge of the Atlanta circuit.

The matter of adoption of a plan to have Judge Davis serve 15 weeks during the year at a salary of \$1,000 and a former president of the Atlanta Lawyers' Club.

the five superior court judges with power to act, and the judges were unanimous in their approval of the plan.

In former years, judges of the Stone Mountain circuit handled criminal cases in Fulton county, while the local judges devoted their time to civil business. Judge Davis will handle only criminal cases. The Stone Mountain jurist was formerly a member of the legislature from DeKalb county. He is a past president of the Stone Mountain Bar Association and a former president of the Atlanta Lawyers' Club.

Georgian Tells Senate Body NRA Hinders Competition

Official of Chicopee Mills
hits 'Monopolistic Practices'
Are Fostered by Codes.

By GLADSTONE WILLIAMS.
WASHINGTON, April 4.—Condemning "monopolistic practices" which he charged are fostered by NRA codes, Russell E. Watson, vice president and general counsel of the company operating the Chicopee mills, of Gainsville, Ga., today told the senate finance committee that the cotton textile code "hinders free competition, destroys efficiency and creates

wasteful losses which might be applied to higher wage payments and added employment."

While approving broad objectives of NRA as related to maximum hours of employment and minimum pay, the witness sounded a warning that if American business is to go forward "NRA must reverse itself and abandon artificial and uneconomical methods such as price fixing and production control."

Loss Decried.
Deplored the loss of American foreign markets, Mr. Watson declared that monopolistic practices as embodied in machinery limitation provisions of NRA codes, together with increased

labor costs, the cotton processing taxes and higher priced cotton, have combined to practically destroy the export market for American cotton goods.

Citing the cotton textile code as "a perfect example of a monopoly fostered by an NRA code," the witness told the committee restrictive measures like limitation of machinery operation had been incorporated in the code to bolster up an industry suffering from "obsolete spindles and antiquated merchandising methods."

"The pain truth is," said Mr. Watson, whose company operates textile mills in Georgia and Massachusetts, "that a major surgical operation is required if the textile industry is to have economical production and, as a direct result, a lower price level and the payment of better wages. The sooner the industry faces that fact the sooner the result will be accomplished. Marginal producers must be eliminated. Approximately one-third of the spindles now in use are more than 30 years old."

Code Regulation Hit.
"Instead of addressing itself intelligently and energetically to the correction of these conditions, the industry further burdens itself by the wasteful and uneconomical control of production, a monopolistic practice adopted under the guise of NRA code regulation."

Mr. Watson's recommendation to the committee with respect to new NRA legislation now under consideration was that it "prescribe maximum working hours which will employ the unemployed, with sufficient wages for workers for them to buy their share

of what they produce, permitting fair competition to prevail within limitations."

Directing pointed criticism at monopolistic provisions of the cotton textile code Mr. Watson said:

Monopoly Charged.
"Here we have a perfect example of a monopoly fostered by an NRA code. The textile code is clearly monopolistic, because, through the restriction of machinery operation, it takes away a part of one company's business and gives it to another, thus preventing free competition. The business one company may have built up over a period of years through patient, efficient effort, is taken away overnight by a hard and fast arbitrary rule of production control, sponsored by competing elements within the industry which benefit as a consequence."

"Under this code if weak links in the industry find themselves unable to keep apace, instead of going out after new business they resort to the simple procedure of petitioning the code authority for a further curtailment of machinery operation."

"The monopoly is further emphasized in the incentive it removes from efficiently operated plants to increase efficient operation, measured in lowered production costs, cheap goods and greater consumer demands. Under machinery limitation there are definite limits to savings that may be accomplished in production costs because of fixed overhead charges. In our own case as I have pointed out, this overhead, attributable solely to idle machinery, represents an increase of 27 per cent in pre-code costs of production."

Atlanta To Join Fort McPherson For Celebration of 'Army Day'

Designed to focus public attention upon the need of an adequate national defense, Army Day will be observed in Atlanta and at Fort McPherson Saturday.

Mayor James L. Key Thursday issued a proclamation calling upon citizens of Atlanta to join in observance of the day and urging them to display the American flag on their places of business and at their homes. The proclamation was issued at the instigation of Atlanta chapter, Military Order of the World War, the national order which initiated Army Day eight years ago.

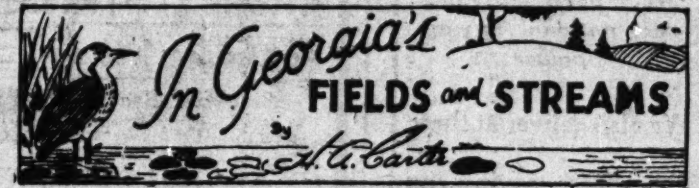

Atlanta Post No. 1, American Legion, is sponsoring the sale of American flags to merchants and businessmen and Kenneth R. Murrell, commander, expressed the hope every merchant would display the flag on Army Day. Proceeds from the sale will be used by the post to maintain the

flagpole at Five Points, which was erected by the Legion.

All patriotic Georgians were called upon Thursday by Cecil V. Whiddon, commander of Greater Atlanta Post No. 390, Veterans of Foreign Wars, to join in observance of Army Day, which also marks the 18th anniversary of America's entry into the World War.

"Open house" will be held at Fort McPherson as part of the Army Day program, and in addition there will be a polo contest at 2 o'clock Saturday. The game will be played on the parade ground and will precede the review at 3:30 o'clock.

Commanding officers in charge of the fort announced the kitchen where food is prepared for men of Company E, of the 22d infantry, will be open for inspection and Atlanta housewives will see where the three meals a day for the soldiers are prepared.

It is a source of satisfaction to me that the Georgia legislature saw fit to repeal the anti-trap legislation that had clouded the conservation horizon for six years. The representatives and senators saw the need of the change and made it. Now we may expect a return to more normal times and better crops of poultry and corn.

Those of you who read this column from day to day will remember that it has never placed any particle of praise at the feet of those who were responsible for this law. It was one of the most vicious bits of legislation ever enacted by a state assembly. There were three states in which this law, sponsored by a national organization, was enacted. Now there are but two. South Carolina and Massachusetts are still in the grip of the sentimentalists, although the rising tide of feeling against the law will soon kill it in Massachusetts.

None of us have any quarrel with those who would alleviate the suffering of animals. As a matter of fact I am one with them in spirit but not by affiliation with their organizations. It is my contention that we should not allow the feelings of a predatory animal to sway our reason to the extent of costing our state more than \$5,000,000 annual losses to poultry killers and crop-destroying animals.

Alleviating pain is a worthy motive. It should be given every expression possible. But it should not go so far as to attempt to ban by legislation the use of the only practical means of controlling dangerous animal pests.

The side actions of the law have been related several times. What will its repeal bring to the state?

It will bring to us protection for the poultry that we now have to import from neighboring states. It will bring to the farmer a means of protection against the muskrats that destroyed more than half of his corn

crops last year in north Georgia valleys. It will reduce the annual loss to animal pests and will gradually turn those same animals into assets of no small value for the state. The fur trade will be revived in Georgia and with the abundance of muskrats now in our state, we should be able to get some of the millions of dollars that now go to the trappers of the Louisiana marshes.

Whenever a liability can be converted into an asset, let it be done, by all means, for waste is the most insidious single factor in civilization. Waste of effort and waste of resources have been crippling agencies in our history. Conservation is wise utilization and nothing more. The old idea that conservation was close and very strict protection is fading away. The

DEL MONTE TOMATO SAUCE

Years ago
it was

Sassafras Tea

YEARS AGO mothers used to give sassafras tea, sulphur and molasses, or some other "spring tonic" for "spring fever."

"Spring fever," with its days of listlessness, is many times nothing more or less than plain, ordinary constipation—due to insufficient "bulk" in the meals you eat.

Your grocer supplies the modern way to correct this condition... in a delicious cereal called Kellogg's ALL-BRAN. Two tablespoonfuls daily of this pleasant, natural food furnish the "bulk" required to maintain regular habits. How much better than taking old-fashioned "spring

tonics." ALL-BRAN also provides vitamin B, and food-iron, an important element of the blood.

Of course, if you feel actually ill, after being cooped up indoors all winter, you should consult your doctor. ALL-BRAN corrects only common constipation, makes no claim to be a "cure-all."

Kellogg's ALL-BRAN contains much more needed "bulk" than part-bran products. Serve as a cereal with milk or cream, or cook into delicious muffins, breads, waffles, etc. Appetizing recipes on the red-and-green package. Made by Kellogg in Battle Creek.

ELECTROCUTION STAY
DENIED TWO NEGROES

R. C. Whitman Named Putnam Solicitor by Governor Talmadge.

By the Associated Press.
Governor Talmadge Thursday declined to stay the electrocution of Isham Ashby, Appaling county negro, who is scheduled to be electrocuted at the state penitentiary in Milledgeville, Friday for slaying a white man, J. W. Holton.

Previously the governor turned down an application for clemency in behalf of Albert Rivers, another negro, who also is to die in the electric chair Friday for conviction of criminal assault upon a 9-year-old white girl. Rivers was convicted in Screven county superior court.

The state prison commission has also turned down applications for clemency in both cases.

A lunacy commission appointed by Governor Talmadge to examine Ashby wired the governor that Ashby was not insane. "He does not recognize seriousness of offense, not insane," the message read. It was signed by Dr. John W. Oden, superintendent of the state insane hospital, and Dr. Y. H. Yarborough, a physician at Milledgeville.

Applications for clemency in behalf of three men serving time for forgery, larceny and burglary, were taken under advisement Thursday by the State Prison Commission.

The board heard an appeal for a paroled sentence for N. A. (Norman) Pickett, who was convicted in Clarke county of forgery in April 1934, and sentenced to serve from two to three years. The application was filed by Joseph E. Webb, attorney.

Clemency was asked for O. R. Thorpe, who was convicted in Bibb county in January, 1933, on the charge of larceny from the house and given four years. He is serving on a Paulding county chain gang. The application was filed by Attorney J. E. B. Stewart.

Edward Johnson asked to be paroled from a sentence from one to three years for burglary. He was convicted in February, 1934, in Spalding county.

Governor Talmadge has appointed R. C. Whitman as solicitor of the county court of Putnam to fill the unexpired term of E. J. Summerour Jr., who resigned recently. The term expires January 1, 1937.

FLORIDA SOLON ASKS
BAN ON CHAIN STORES

TALLAHASSEE, Fla., April 4.—(P)—Complete outlawry of chain stores, commissaries and itinerant merchants under the declaration that such business constitutes an "evil" was sought in the senate today by Tillman, of Tampa.

Only one license to engage in business, and with business confined to one place, would be issued in the state if the bill became a law and was held constitutional. The license could be issued only to bona fide residents of the state, and only bona fide residents could be stockholders in a firm engaged in business.

Violation of the conditions of the law would bring about loss of the business permit.

The bill numbered 101 was labeled "The Florida recovery act." It declared an emergency productive of widespread unemployment and distress, which is undermining the standards of living of the people and which burdens interstate commerce, impedes the return of prosperity and affects public welfare, exists in the state.

Lumber Mill Cuts
Wages, Hikes Hours

WEST HELENA, Ark., April 4.—(P)—The number of strikers at the Chicago Mill and Lumber Company amounted to 1,250 here today when the night crew of 650 men failed to report, in protest of a new scale of longer hours and lower wages announced this morning by the company.

The company's posted notice said the new schedule was necessitated since the government abandoned the Belcher case, which involved an appeal of the lumber code's enforcement authority.

Decision for the walkout of the night crew was rendered at a meeting of a hurriedly organized strike committee this afternoon.

The company announced a wage decrease of 23 cents an hour to a scale of 14 to 16 per hour, and an increase in hours from 40 to 60 per week.

PASTOR SAVES INMATES
AS MACON HOME BURNS

MACON, Ga., April 4.—(P)—Five young women and three infants owed their lives today to a minister's fortitude—but it almost cost the preacher his life.

Rev. A. C. Baker, pastor of the Baptist tabernacle here, returned to his home for a forgotten visiting book yesterday after leaving for his church. The telephone rang and he was told that smoke was coming from the Rescue home, kept up by the tabernacle.

Rev. Baker rushed to the Rescue home and carried the inmates out before they were trapped. He returned to the interior to salvage clothing and was lost in a room billowing with smoke.

He almost became unconscious before he staggered through a door he had battered open and escaped. He recovered from his experience shortly afterward.

Damage was estimated at approximately \$5,000. The home was destroyed.

Drug Firm Celebrates 56th Year Since Founding by Dr. Joseph Jacobs.

Congratulatory messages from persons in all walks of life are pouring in upon the Jacobs Pharmacy Company, which is this week celebrating the 56th year of its existence.

The Jacobs pharmacy chain was founded in 1879 by the late Dr. Joseph Jacobs, distinguished scientist and a Georgia civic leader for many years. The Jacobs company is now under the leadership of his son, Sinclair Jacobs, its president.

Messages of congratulation on the 56th anniversary were received Thursday from Mayor Key, Senator Russell, Wiley L. Moore, president of the Chamber of Commerce; the Medical Association of Georgia, the American Legion, Kiwanis Club, Lions Club, Advertising Club, Congressmen Ransome, Mrs. Max Land, Chief Justice Richard E. Russell, of the supreme court of Georgia, and many others.

Mr. Jacobs, recalled his boyhood friendship with Dr. Joseph Jacobs and his long association with the distinguished physician.

"Congratulations on your 56 years in business," Justice Russell telegraphed. "My boyhood friendship with the founder, Dr. Joseph Jacobs, endured nearly 60 years until his death. Upon Dr. Jacobs' removal from Athens he established the institution that made a new era in the drug business and rendered a great service to the public, especially in the scientific compounding of prescriptions."

"Dr. Jacobs was a distinguished scientist and a gentleman. Recognizing the importance of service to the public, I congratulate the present organization for following in his footsteps and wish you a thousand years of success."

All of the Roosevelt cattle were of the first-class variety by purebred bulls out of native cows.

Cattle Industry in State Is Doomed
Unless Worm Is Curbed, Chief Says

ALBANY, Ga., April 4.—(P)—Dr. P. C. Bishop, of Washington, D. C., chief of the division of insects affecting man and animals, of the Bureau of Entomology, here to visit the second annual Albany fat cattle show, said today that "With the best-producing industry in Georgia practically in its inception at this time, it is unthinkable that we should fail to make the most stringent efforts to control the screw worm."

Unless the pest is controlled, Doctor Bishop said, one of the state's most promising industries is doomed from the start.

To Direct Campaign.
Doctor Bishop, who will direct a control campaign in the southeast, provided an anticipated \$480,000 appropriation is made available for the fight was accompanied here by Dr. E. W. Laake, of Dallas, Texas, who will be in charge of research work, and Dr. W. E. Dove, of Savannah, regional director.

Doctor Bishop said that in the past, livestock owners had been inclined to feel that the problem of the screw worm was one for the government rather than for them. This impression, he said, was erroneous, and added that the owner who fails to protect and treat his cattle is a definite menace to the industry.

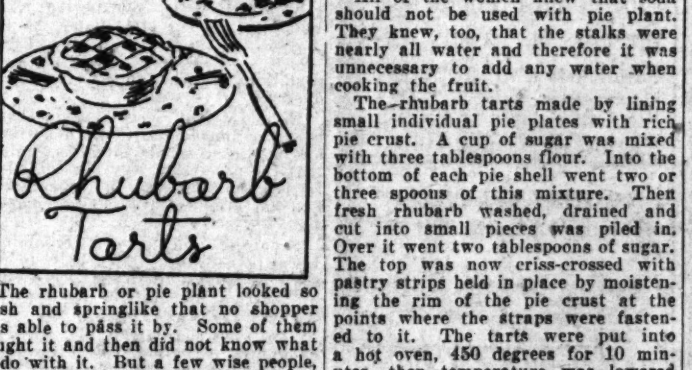

"This exhibition of fine beef cattle," Dr. Bishop said, after visiting the show here, "demonstrates the wonderful possibilities Georgia has in the livestock industry, and points the way to more prosperous times for the farmers of this state. I should like to warn stockmen, however, that the screw worm is still a most serious menace to the success of stock raising in the southeast, and that this pest must be reckoned with. The presence of the screw worm in Florida and south Georgia during the late winter and at the present time is evidence that the worm has successfully overwintered. As soon as it recruits its armies by breeding in wounds in animals during these warm days it will be moving northward just as it did last year."

While the government agencies are planning a vigorous campaign against the pest, Doctor Bishop continued, "it cannot be too strongly emphasized that the problem is one which the farmers themselves have to solve. We can only lend a hand by showing them what to do."

I firmly believe that with the immediate adoption of the methods of fighting the screw worm advocated by the United States Department of Agriculture and the authorities of Georgia, this scourge of livestock may be checked in its spread and losses largely eliminated. All of us must work together vigorously if we are going to give protection to this developing industry and make farming profitable."

NANCY PAGE
Fresh Fruit Time Is Pie and Tart Time

By FLORENCE La GANKE.

Mrs. Lee and Mrs. Aston chose rhubarb tarts as their favorite method of serving the pie plant.

All of the women knew that soda should not be used with pie plant. They knew, too, that the stalks were nearly all water and therefore it was unnecessary to add any water when cooking the fruit.

The rhubarb tarts made by lining small individual pie plates with rich pie crust. A cup of sugar was mixed with three tablespoons flour. Into the bottom of each pie shell went two or three spoons of this mixture. The fresh rhubarb washed, drained and cut into small pieces was piled in over the crust and covered with sugar. The top was now criss-crossed with pastry strips held in place by moistening the rim of the pie crust at the points where the strips were fastened to it. The tarts were put into a hot oven, 450 degrees for 10 minutes, then temperature was lowered to 350. A lightweight pie tin was put over the group of tarts to keep the steam in and start the rhubarb cooking. This was done at the end of the first 10 minutes. The tin was removed after it had covered the tarts for 20 minutes. Then baking was finished, giving the straps a golden brown color.

Atlanta's Loveliest Gardens To Greet Flower-Lovers on Pilgrimage

By Sally Forth.

MOTHER NATURE stole a march this spring and started all the flowers blooming one month ahead of schedule. The fickle dame is always up to some kind of prank and for that reason Mrs. William Healey had to change the plans she made for the April garden tours. Of course you know these garden pilgrimages are conducted under the auspices of the Eggleston Hospital Auxiliary, and Mrs. Healey was put in charge of all arrangements. She plans now to begin the tours on Saturday, with another on Sunday, and some of the loveliest gardens in Atlanta will be opened to the public. The hospital will reap the benefit of the funds accruing from the nominal entrance fee which will entitle flower-lovers to view the beauty spots. Certainly the strictest observance of Lent will permit the devotion of society's time and shekels to this philanthropic affair, for it will mean aid in the relief of human suffering.

The gardens to be viewed on Saturday include those belonging to Mrs. J. J. Nicholson at East Lake, Mrs. Sam Finley on Andrews drive, Mrs. Price Gilbert on Wesley avenue, Mrs. Robert L. Cooney and Mrs. Arthur Harris in Druid Hills. Mrs. Nicholson's garden presents thousands of gorgeous tulips and you will find it rivaling a Dutch landscape with its vivid coloring.

In Mrs. Finley's beautiful garden you will find a shrine set in the midst of a charming Old World planting. Her rock plants are an interesting feature and just now pink and blue phlox provide a riot of color. A wealth of brilliant bloom greets the eye from the series of terraces in Mrs. Gilbert's garden.

The dominant note in Mrs. Cooney's garden is the large collection of native wild flowers, in which she specializes. Her walled formal garden is planted with many perennials, which you should not fail to see in bloom. The first thing that catches the eye in Mrs. Harris' garden is an old well-head which she and Mr. Harris brought from Europe, on one of their many trips. It graces one of the terraces, and on another is a square crystal-clear pool that reflects a sundial set against a backdrop of tall evergreens.

Your Sunday afternoon drive may include the gardens of Mrs. J. J. Goodrum on Pace's Ferry road, Mrs. Frank Fleming and Mrs. Louis Moss on Peachtree road, Mrs. Clark Howell on Wesley road and Cator Woolford in Druid Hills. The serpentine brick wall surrounding the Goodrum garden will remind you of that at the University of Virginia, which was designed by Thomas Jefferson. And you should not miss seeing her box borders, standard roses and espaliered cherry trees.

At Mrs. Fleming's wild azaleas bloom in every known hue, her collection including over 70 varieties and covering an entire hillside. Mrs. Moss' informal garden boasts crabapples, lilacs, apple and dogwood trees in full bloom. If you agree with Sally that blue and yellow form an irresistible color combination, you should see her borders of blue phlox and yellow tulips. A series of rock-bordered pools in a woodland ravine is just one of the many beautiful features of Mrs. Howell's garden. Through the ravine wind charming woodland paths bordered by masses of wild flowers and shrubs. When you turn your motor in at Mr. Woolford's you will drive between masses of rhododendron to the crest of the hill, where his colonial residence commands a superb view. At the bottom of the hill is a picturesque winding stream, flanked by formal gardens.

These gardens will be open from 12 to 5:30 o'clock on Saturday and from 2:30 to 5:30 on Sunday. Assisting Mrs. Healey in the charitable venture are Mesdames E. H. Ginn, Jesse Dwyer, Philip L'Engle, Louis Moss, Beverly DuBose, Hines Roberts, Robert Pegram, Paul Hultfish and Elbert Tuttle.

Mrs. Healey is very enthusiastic about the tours and is working with might and main to make them a financial success. She is praying for clear and sunny weather and a big crowd to complete her cup of happiness.

THE news that Judy Beers left Gunston Hall in Washington, D. C., was received with sincere interest by the scores of friends of this lovely young person and members of her family.

When Judy participated in the winter sports last January, a coaster accident left her in a serious condition. She has fully recovered and was welcomed with open arms by her classmates at Gunston Hall.

LISTED among the prominent Atlantans attending the pilgrimage in Natchez this week is Mrs. George W. McCarty, who is the guest of Mrs. John Carroll at her home in Jackson.

These charming matrons, accompanied by Mrs. Silas Davis, form the trio attending the special entertainments this week when Natchez will re-create the days of the old south in a series of old-fashioned balls in antebellum homes and other colorful events of a bygone era. Mrs. Davis, by the way, a native Mississippian, is again a resident of Jackson. She has many friends in Atlanta, where she lived for a number of years.

The pilgrimages to the shrine of beautiful old southern homes

will be a most interesting and profitable one for all who take part in it.

Keep a Good Laxative

always in your home

Among the necessities of home is a good, reliable laxative. Don't be without one! Do your best to prevent constipation. Don't neglect it when you feel any of its disagreeable symptoms coming on. . . . We have used Black-Draught for 21 years and have found it a very useful medicine that every family ought to have in their home," writes Mrs. Perry Hicks, of Belton, Texas. Mrs. Longino Re-elected Head Of Local Parent-Teacher Council

Mrs. D. R. Longino was re-elected president of Atlanta Council of Parents and Teachers at the meeting held Thursday morning on the sixth floor of St. Paul's. Vice presidents elected were Mrs. Ralph McCalland, first; Mrs. A. D. Hammond, second; Mrs. David Meyer, third; Mrs. Percy Rich, fourth; Miss Carrie Llewellyn, fifth; Mrs. B. A. Long, sixth; Mrs. J. H. Earnest, seventh. Other officers elected were Mrs. H. W. Morrow, recording secretary; Mrs. A. C. Spinks, corresponding secretary; Mrs. R. E. Wise, treasurer; Mrs. J. J. Cerniglia, historian; Mrs. Byron Mathews, parliamentarian.

Mrs. Longino has served as president of this prominent organization for the past year and during her administration the Atlanta Council of Parents and Teachers has broadened its wide scope of activities in the interest of child welfare. As leader for the past year of this group interested in children, Mrs. Longino has displayed

vision and shown qualifications of unusual executive ability. Re-electing her head of the council for another year is an honor conferred upon her by its members worthy of note and comment. In addition to her interest in the welfare of children Mrs. Longino is also an active worker in Atlanta's civic and cultural circles.

An important feature of Thursday's meeting was the adoption of a resolution by the local council of parents and teachers requesting city authorities to stress the prevention of mosquitoes in Atlanta and surrounding territory for the protection of the children and in order to prevent an epidemic of dengue fever. Recalling the large number of mosquitoes prevalent in the city last summer the resolution urges the city authorities to have homes and schools inspected twice each week during the warm season in order to reduce the number of mosquitoes. The council offered its full co-operation in the undertaking of this project.

A NURSE TAUGHT HER HOW

One has confidence in nurses, and more than one woman has originally been introduced to Midol through a nurse's recommendation. "It is such a real comfort, I haven't more dread of periodic pain and I used to have a bad time," is what one woman says of Midol tablets. They always bring relief from regular pain, make it easier to "be yourself." Why not have this comfort from Midol? It acts fast, is effective for several hours, but it's not a narcotic. It is a special medicine, for this special purpose, and specialists can tell you how well it works! You'll see it on the druggist's counter, or just ask the clerk for Midol.

Things That Make Women More Beautiful

A Lovely Spring Perfume Made

To Suit the April Child

By MIGNON.

This is the month in which to buy an April perfume. There can't be any doubt in any woman's mind that April has its own particular fragrance. And it's not one that any other month has been able to duplicate.

One manufacturer has made a perfume which he insists smells like a spring rain, and I'm not going to argue the point with him because I think it does too. Another nice thing about it is that you can get it in small, pocketbook-size containers, so that if you don't like it you won't be overstocked.

It was amused at a manufacturer who told the other day that he was getting out a very wonderful scented cologne, but that he wasn't going to put it on the market until spring because that was when people wanted colognes. There are scents that are better in summer, some that are more effective in winter, but why people should be perfumed only in summer I can't understand. As a matter of fact, I think that a toilet water or cologne, which contains a high percentage of alcohol, should be used after a bath in the winter to help prevent colds.

If you are in the habit of taking hot baths, this is a particularly good suggestion for you.

There is a toilet water and cologne, scented with this same perfume, but if you can't find that I would advise you to use an unscented cologne because it is never advisable to mix perfumes.

Colognes have come back into fashion after the years in which toilet water seemed to take their place.

An unscented cologne by a good manufacturer is good for this use.

If you want to know where you can purchase any article mentioned in this column phone Mignon at The Constitution. Please do not write unless you live outside the city, in which case enclose a stamped, self-addressed envelope.

MACON POLICE PLAN TO QUESTION RANDALL

Joel Randall, arrested several weeks ago in Richmond, Va., in company with Leland Harvey and Aubrey Smith in possession of burglary tools, and who was being held in Fulton tower on robbery charges, Thursday afternoon was removed from the tower and taken to Macon by Chief Ben Watkins, of the Macon police department.

Chief Watkins said he wanted to question Randall in connection with the safe-cracking burglary of the Southern Bell Telephone Company in Macon. He also stated the Bibb county grand jury is now in session. Randall was tried Monday in Fulton superior court on charges of participating in the robbery, December 3, of a Highland avenue grocery store. A mistrial was declared and new trial was set for April 11.

DOG SHOW CLASSIC WILL OPEN TODAY

Judging Times Are Announced for Numerous Classes.

Little dogs, big dogs, long-haired dogs, short-haired dogs, barking dogs, howling dogs—dogs of every description—will be on hand when the doors open at 10 o'clock this morning for Atlanta's annual dog show, to be held at 435 West Peachtree street.

The 23rd show of the Atlanta Kennel Club this year finds more than 250 dogs nominated in the classic, which will close Saturday night when the best dog in the entire show is named by Judge Alfred Delmont. A total of 34 different breeds are represented, including all of the public favorites, in addition to several breeds making their initial appearance in Atlanta show rings.

Judging will start at 11 o'clock, and there will be judging programs each morning, afternoon and evening. Pekinese, pomeranians, pug dogs and toy Manchester terriers will be the first breeds offered for the judges' inspection this morning, to be followed this afternoon by the pointers, English setters, Irish setters, cocker spaniels, English springer spaniels, beagles, dachshunds, foxhounds and chow chows. Tonight's program, which starts at 7:30 o'clock will bring Airedale terriers, Scottish terriers and Boston terriers into the ring.

The working dogs will dominate Saturday morning's events, when breeds to be judged include German shepherds, Great Danes, bulldogs, cairn terriers and miniature and standard schnauzers. Saturday afternoon offers the largest number of breeds of any session, with collies, Shetland sheepdogs, Doberman pinschers, smooth and wire-haired fox terriers, Irish terriers, Sealyham terriers, West Highland white terriers, Dalmatians and poodles. The special children's handling classes open the Saturday night program, to be followed by judging of the variety groups, including the dogs previously selected as best in each respective breed, and finally, selection of the best dog in the show.

E. W. Leach, of Minneapolis, superintendent of the show, expressed satisfaction with arrangements which had been made by the local kennel club. "The building selected appears to meet all requirements," he said. "It is sufficiently large to provide plenty of seats for spectators and there will be ample facilities for proper care of the dogs. In addition, it is close to the downtown section and is easily available by street car or bus."

Longfellow Grandson Jailed for Morals

CAMBRIDGE, Mass., April 4.—(UP)—Henry Wadsworth Longfellow Dana, 53, intellectual advocate of communism and grandson of the poet Longfellow, was arrested today on an indictment charging moral turpitude.

Dana was led from the historic Longfellow home on Brattle street by two police inspectors after the Mid-dex county grand jury had acted on alleged revelations of a 16-year-old Cambridge boy.

Protecting the arrest and denying the charges, Dana was brought to police headquarters, where he was photographed and fingerprinted, and later was held at East Cambridge jail until he provided \$2,000 cash bail. Dana will appear in court tomorrow and will be represented by former City Solicitor Richard Everts.

The sensational police action against Dana came at a time when his name was being headlined in connection with his pro-communist activities.

TOLEDO, Spain.—(UP)—A document signed by Philip II on September 10, 1594, in El Escorial, where he built the huge combination monastery, palace, church, mausoleum, library and museum, was discovered by investigators poring through the archives of the local provincial deputation.

COURT REFUSES PLEA OF HURT INTERESTS

Judge Edgar E. Pomeroy denied Thursday a petition by Hurt Building, Inc., seeking to have the court set aside the sale of the Hurt building to Courts & Company for an Atlanta syndicate at a cash price of \$2,281,000. The Hurt interests contended they should have been allowed to bid at the final bidding, when they attempted to raise the Courts bid by \$1,000, the bid being refused by the court at the time on the ground the Hurt interests had violated the terms of their agreement with the bondholders' committee and had sought to interfere with the sale.

Judge Pomeroy announced at the conclusion of the hearing Thursday that he has under consideration contempt proceedings growing out of the charges of bad faith made against the Hurt interests.

Three Men, Woman Arrested For \$8,000 Store Burglary

Following three weeks of investigation and shadowing, city detectives Thursday claimed solution of the \$8,000 burglary of the George Mue Clothing Company March 10, with the arrest of three men and a woman as suspects and the recovery of jewelry, clothing and other valuables.

Early Thursday morning the young squad of the Atlanta police department arrested a man who gave his name as W. A. Roy, alias W. A. Reeves, of a local hotel. When arrested near Five Points, the detectives stated, a quantity of jewelry identified as some of that taken from the Mue store, was found on Roy.

He was held in the city jail incommunicado early Thursday morning while the squad, composed of Detectives E. S. Acree, Fred Battle, Hiram Davis and C. E. McCarty, conducted a raid on a house on the outskirts of Lithia Springs, where they arrested Mr. and Mrs. R. B. Hanie, both 26, and M. H. Bullard, 42, who said he lived near Douglasville.

After the four suspects had been lodged in the city jail, the squad went to Hapeville, where, assisted by Chief L. M. Moseley, of the Hapeville police, they raided a house on Fulton avenue where a quantity of jewelry, luggage and clothing, identified as some of the loot of the Mue robbery, was taken. The house, the detectives said, had been used as a hide-out by one of the men who was in custody Thursday night.

A petition for habeas corpus, filed by Attorney B. J. Dantone, who said he had been retained by relatives of Roy or Reeves, was dismissed Thursday by Judge Jesse M. Wood of Fulton superior court when it was revealed that Dantone was not permitted to see his client when he called at the city jail because detectives were questioning him at the time. Dantone will be permitted to see Roy at 10 o'clock this morning, the detectives stated.

Detectives stated that at the time Mrs. Hanie was arrested she was wearing some of the jewelry allegedly taken in the burglary of Mue's.

The jewelry which Mrs. Hanie was wearing and a boxful found in the Hanton avenue house in Hapeville was identified as loot by Obey T. Brewster, Mue executive. The loot consisted of fraternity jewelry, loose diamonds, clothing, luggage and other valuables.

Hanie, when arrested, detectives stated, was in possession of a stolen car which contained a complete safe blowing outfit.

The suspects Friday night continued to discuss the case with the detectives, steadfastly maintaining their innocence, of any knowledge of the "Mue job" or any other safe-cracking or burglary job.

Crackers Lose to Red Sox, 10-5; Grove Faces Thomas Today

LINDSEY MAKES SPLENDID START, WEAKENS IN 4TH

Hitting of Chatham, Taylor and Palmisano Feature for Crackers.

By Jimmy Jones.

The ball club that Tom Yawkey's millions built and which Joe Cronin, the \$250,000 shortstop manager, was put on display as Atlanta's first big league opposition yesterday and clubbed the Crackers back, 10 to 5, after a very unimpressive start against the pitching of hard-working Jim Lindsey.

In the first inning, when Jim, the game old warhorse, poured the ball across the plate to strike out Max Bishop and Bill Werber in a row, the husky Red Sox's complexion was about the same as that of their home.

Then Prince Henry Oana, the Hawaiian centerfielder, raced back and hauled down Carl Reynolds' long fly with a graceful catch to pull Jim through the first inning unscathed.

RED SOX START.

But in the second, third and fourth, the fans, of which there were 1,700 paid, began to understand just why Mr. Yawkey had spent all that dough, as well as to see some of the results of it.

Along with the New Deal, Mr. Yawkey was the champion spender of 1933-34 and while about it, he corralled a few fellows who can hit that baseball.

The veteran Lindsey, who won 10 and lost 3 for the club in little better than eight weeks last year, was pitching for his job on the staff.

After pulling through the first, he hit a light squall in the second when Manager Cronin walked and Oana kicked Solters' looping single to center, the manager taking third and Solters second. Cronin scored while Johnny Hill made a nice play on Rick Ferrell's grounder and Mel Almada's single scored Solters.

KELLEY GOES IN.

Lindsey allowed a run in the third and in the fourth the Sox battered around for five hits and five runs. That was the last inning that Big Jim worked, Harry Kelley relieving him at the start of the fifth and finishing up, allowing the big leaguers only three hits and two runs in the five innings.

The Crackers, he said, didn't look at all badly at the plate themselves, getting 11 hits as compared to the Red Sox' 13.

They hammered "Lefty" Leo Ostermuller, one of Cronin's prize pitchers, rather lustily in the first five innings, going into the lead in the third with a three-run spurge on successive doubles by Lipscomb and Harry Taylor, who had another fine day with the stick; a base on balls to Sheriff Harris, Oana's neat sacrifice and Joe Palmisano's double to center on which Eddie Ainsmith, umpiring the bases, ruled that Alana trapped the ball.

DEBATE ON LONG DRIVE.

There was some debate in this

The 'Left' and the 'Right' of the Red Sox

Here you see two of the big reasons why the Boston Red Sox, bought and paid for by Tom Yawkey's millions, are expected to get somewhere in the American league race this year. At left in the photo is Robert Moses (Lefty) Grove, Connie Mack's famous southpaw of a few years back, who is essaying a come-back after a sour season last

year, when he had arm trouble. Joe Cronin, at the right—the shortstop-manager for whom Yawkey paid Papa-in-Law Clark Griffith the unheard-of sum of \$250,000—counts on the veteran southpaw for 18 wins this year. Grove will pitch against the Crackers today. Constitution staff photo by J. T. Holloway.

PEKINESE OPEN ATLANTA SHOW THIS MORNING

250 Dogs of 34 Breeds Entered in Two-Day Event.

Ranging from the tiny toy Manchester terriers, formerly known as black and tan, to the hulking Great Danes, 250 dogs, representing 34 different breeds, began an elimination contest this morning that will end Saturday night, when one of them is declared the best dog in Atlanta's annual show. This year's event, to be held at 435 West Peachtree street, promises to be the finest in the 23 years of Atlanta's dog show history.

Doors will open at 10 o'clock each morning and remain open until 10 at night. Judging will be held between 11 and 12 o'clock mornings, from 1-30 to 5:30 o'clock afternoons, and will start at 7:30 o'clock evenings. Alfred Delmont, of Wynnewood, Pa., nationally known expert on dogs, will judge all regular classes, and Charlie Davis, of Elbridge, N. Y., will render decisions in the special children's handling classes Saturday night.

Entries are large in all of the more popular breeds this year and the keenest sort of competition is assured for the coveted championship points. In addition, a number of champions have been entered in competition for best of breed or for exhibition. Included among the Atlanta-owned champions are The Coming Storm, cocker spaniel owned by Paul Hamer; Swansstrom's Dottie Girl, Boston terrier owned by E. J. Swansstrom; Fiddown Thistle, cairn terrier owned by Miss Catherine Ewing; and Bartonsbury Vex, long-haired dachshund owned by Miss Pam Johnston. Several champions in various other breeds have been sent here from out-of-town kennels.

Scottish terriers lead in number of dogs entered, followed by wire-haired fox terriers, Boston terriers, chow chow, cocker spaniels and airedale terriers. Among the unusual breeds in which entries have been made are West Highland white terriers, poodles, Shetland sheepdogs, pug dogs, German shepherds, and miniature schnauzers.

Work on the building, which is located next to the Lullwater building, has been completed and everything is ready for the first class of Pekinese program, to come into the ring.

THREE MATCHES ON CARD TONIGHT

Promoters Roby and Bettis will offer three main wrestling matches tonight at the Riverside open air arena, beginning at 8:15. The arena, which has been enlarged and will now seat 2,000 fans.

Toni Marconi, Italian wrestling champion who has come direct from New York, stopping over a few days before going to Florida, has met the best wrestlers in this country, including in this list Gus Sonnenberg, Strangler Lewis, Jim Browning and the champion, Jim London. He has won many followers by his clean and sportsmanlike tactics. He will be matched with Atlanta's own John Mauldin. The latter claims if he can defeat this opponent it will put him on top.

Ripper Reeves, the former University of Florida athlete, will meet the Terrible Turk in the semi-final match of the evening.

Bob Anderson is anxious to appear again at this arena and his opponent will be the rough-going Assyrian champion, Ramon Miller. Anderson claims he can pin Miller if given the chance.

These three matches comprise one of the best cards ever offered at this arena.

It stands today as the highest price—by more than \$100,000—ever paid for a ball player, major or minor. When you consider that the Yankees paid the same Red Sox only \$100,000 for Babe Ruth in 1919, that Willie Kamm, third baseman, was bought by the Chicago White Sox from San Francisco for the same amount in 1923 and that the highest price man of them all, Chalmers (Bill) Cissell, the shortstop, brought only \$125,000 on the hoof, you can really appreciate the business acumen and sagacity of Mr. Griffith.

But Millionaire Yawkey, it seems, is not intimidated by a six-figure sum. He peeled off a mere \$100,000 for Lefty Grove, the pitcher, and amounts ranging in that vicinity for other players on the club. Mr. Yawkey, who is not here with the club, therefore, has taken the play away from Colonel Ruppert, of the Yankees, as the game's heaviest spender.

We asked Manager Cronin about Grove, the lean, 34-year-old, somber-eyed Marylander, who was the American league's prize last year, his first with the Red Sox.

LOOKED GREAT.

Lefty looked great the other day against the Phillies for five innings. They couldn't do a thing with him, and he seemed to have most of his old stuff. He ought to be all right this season, and if he can turn in 18 wins for us, it will be a big help, he replied.

Rick Ferrell, the North Carolinian, and one of the star catchers in the game, corroborated Cronin's sum-up on Grove. Ferrell caught him the other day and thought his fire-ball reminiscent of the days of old when he was burning them over for Connie Mack's Athletics.

Grove, now grayning about the temples, finished strong last year. This spring he has had no twinges of pain in the arm which last year caused him to give a display of temperance down in Florida and which took away most of his effectiveness during the season. He finished with eight won

THE SPORTLIGHT By Krautman Rice

(Copyright, 1935, by The Constitution and American Newspaper Publishers' Alliance, Inc.)

AUGUSTA, Ga., April 4.—A combination hurricane, typhoon and tornado, blew over the Augusta National in the first round of the Masters' tournament. But this explosion never came from the elements. It came from the wood and iron of one of the fastest fields that ever wrecked par.

It was an upheaval that left such stars as Bobby Jones, Walter Hagen, Horton Smith and others deep in the debris. And yet these were all playing fine golf.

As Henry Picard, the tall pine from Hershey, Pa., toured the course in 67 to lead the field, Bobby Jones finished his first day's work—seven strokes away at 74, two strokes better than he turned in a year ago. Yet he was tied for 49th place.

Just back of Picard, one of the coming greats of golf, there were Gene Sarazen, Willie Goggin and Ray Munger at 68. There was Craig Wood at 69, and there were Olin Dutra, Jimmy Hines, Johnny Revolta and Paul Runyan at 70. Ten of the field broke par, and the flanking fire has only started.

Sarazen's Blade Keen.

The day started cool and gray. Within an hour or so the sun was flaming on the white and pink dogwood and the flaring crimson of innumerable blossoms. I first swung in back of Gene Sarazen to follow one of the finest rounds I have ever seen in golf. For over a week Sarazen has been training like two football teams and a brace of major league baseball camps. "This game," he told me, "means not only skill but condition. I think I am ready."

Sarazen had played four practice rounds in 65, 72, 67 and 67. In his opening start he had a 68 that might easily have been a 62. You had the impression that he was using a rifle from the tee—an automatic for every approach. He kept the straight line that led for the pin all the way. He wasted no time, he never fiddled around—he merely hit the ball straight for the fluttering flag. In getting his 68, Sarazen missed six putts from three to seven feet. He never had a putt of over five feet, barring the eleventh hole, where he canned one of seven feet.

"It was one of the greatest rounds of golf I have ever seen," Tommy Armour told me. "It matched the greatest golf I have ever seen. I have never seen Bobby Jones play. It was a masterpiece of golf art. After reaching the green, he could have used his foot and kicked the ball in for a 65 or a 66. I was hitting the ball quite well. I was only one over par, and yet in this round I felt like a hacker."

And I might add here that Tommy Armour is one of the top masters of golf, and you can go back to King James, of Scotland, some 500 years ago.

"Sarazen's play was almost unbelievable," Armour said. "I have never seen in my life so many shots from the tee to split the flag, rarely more than a foot or two off the line. Sarazen's score is even more remarkable in view of what happened. He woke up at 4 a. m. before his match, to hear the hotel door open and find a strange figure in his room. It happened to be a woman. But Sarazen reached for a driver and chased her down the hotel corridor until she ducked into some near-by room.

"It was the queerest experience I ever had," he told me later. "But I was thinking of the \$40 I had left on my dresser. These are tough days. I can use that \$40 to feed my four crows."

"Why did you pick out a driver?" I asked. "I grabbed the first club I laid my hands on," he said. "It just happened to be a driver."

Dutra Displays Power.

After Sarazen, I followed Olin Dutra, United States open champion, and Lawson Little, United States and British amateur champion. Lawson Little was a trifle jumpy, finishing with a 74. But the powerful Dutra, one of the finest golfers in the world, had a 70 that might have been much better.

"This is a strange game," Dutra told me later. "I played every hard shot better than I know how. I missed one or two of the easier ones because I took them for granted in advance."

I saw Dutra hit a 230-yard spoon shot to the 520-yard second hole that barely missed the pin. He had to hook this shot around a trap.

"That was about as fine a shot as I ever saw," I said to the 215-pound Californian after the ball stopped 10 feet past the pin.

"I'll never play another like it," he said, "for it happened to be from a cuppy lie."

Pace Terrific, Says Bobby Jones.

What about Bobby Jones? I had a long talk with Bobby after his round.

"I was hitting the ball better than I have in many weeks," he said. "I have played much worse golf and have

NEW YORK, April 4.—(AP)—A quiet, broad advance in the securities markets the most substantial since the close of the week.

Utilities, the most active group, advanced more than a week. The market was a further flurry of excitement in the foreign exchange dealings, with the Holland guilder the subject of a new rising sharply against gold sterling.

One effect of the rise in sterling, however, was a slump in the London gold price, which prompted considerable selling of gold mining issues. They constituted a notable support to the market.

Utilities seemed to be receiving fresh stimulation from the receipt of the Rayburn-Wheeler bill.

San utility holding companies, in which H. H. Truman, president of the United States, participated today, were recommended that it be modified to permit a holding company to control one or more utility systems.

Rails improved, as traders seemed to take more cheerful attitude toward freight prospects, and J. J. Pelt, American Railway Association, withdrew a bill of subsidies from other forms of transportation, withholding release operating cost that would increase the federal co-ordinating committee a chance to see what they could do for themselves.

On the better tone to be predicted in the copper market, the good foreign demand for the metal, and the fact that the copper market was a little above the level of the commodity markets, led to a 2 to 3 cent advance in the price of copper.

Wheat gained a bushel at Chicago. Cotton was narrowly changed, closing 5 cents lower to 40 cents, and higher than silver rose 1-4 of a cent.

In the stock market, a new uptrend was noted, and a new uptrend was noted, and a new uptrend was noted.

A few utilities actually came up to 100, and more than a point to 100, and more than a point to 100.

On foreign exchange dealings, the Dutch guilder closed at 72.33, up 22 at a cent, and the French franc at 6.50 3-4, up 1 cent, sterling closed at \$4.84 3-4, up 1 cent.

The weekly Federal Reserve bank statements showed a turn-of-the-month jump of currency in circulation of \$61,000,000, which left the total up to \$5,497,000,000, a gain of \$125,000,000 over a year ago.

Telephone Increase.

NEW YORK, April 4.—(AP)—A net increase of 44,000 telephones in service in the Bell System during March was reported today by the American Telephone & Telegraph Company. In the same month last year the system had a gain of 51,000 stations.

Plan Approved.

NEW YORK, April 4.—(AP)—Federal Judge Alfred C. Cox approved the Paramount-Public Corporation, and its subsidiary, Broadway-Parkmount, the reorganization plan adopted had been approved tentatively by the court on February 14.

NEW YORK, April 4.—(AP)—Led by the utilities, the curb advanced a moderate rally today. Advances in fractions to a point prevailed. Transfers increased to 1,277,000 shares from 94,000 the day before.

Public Service of Illinois 6 per cent preferred, in a small turnover, recorded a spectacular rise of 19 1-2 points.

More than a point, while Electric Bond & Share improved fractionally. Other gainers of about a point included Aluminum Company of America, American Airlines, and American Telephone & Telegraph.

Lesser improvement was shown by Swift & Company, American Cyanamid, and International Petroleum.

New England Textiles Hit Processing Tax

BOSTON, April 4.—(AP)—Immediate repeal of the cotton processing tax and imposition of embargoing against foreign competition were urged by the New England industrial committee today to protect the cotton textile industry.

Secretary of Agriculture Wallace's recent announcement that statistically speaking the tax at the present time would be 4.8 instead of 4.2 percent, called vigorously by committee members who met at the New England council offices here.

The committee, headed by Frank W. Damm, of Fall River, recommended that the textile community in New England immediately perfect an emergency organization to lobby for repeal of the tax, or otherwise, to make its condition known.

Sims' Grand Slam Bid Cuts Culbertsons' Lead to 7.180

Mrs. Sims took the queen and queen of hearts and led the queen of clubs. Discarding a spade from dummy, followed by the queen of clubs, which I ruffed, dummy discarded another spade. A close vote in the May 15 referendum on liquor, beer and wine is predicted here Thursday by L. Groves, member of the house of representatives from Lincoln county. "It would not surprise me there are less than 5,000 votes difference on the wet side or the dry side on results of the referendum announced," said Groves, who was co-chairman of the bill which opponents repeal a vote of the people. Groves said he saw very little activity in the rural communities either for or against repeal and that he was surprised.

As to the relation of the three referendum bills, the representative said they were entirely separate and that he did not depend on the other.

"I have no doubt that no one could be said in Georgia should not be able to accept beer and reject not in the referendum," he stated. The beer bill amends the non-drinking bill so that it does not apply to manufacture and sale of malt beverages containing not more than 6 per

sale of wine. The sale of the wine bill, in which the vote is prohibited in consequence if the people call a separate election after the referendum and reject it. If they vote for wine in the state-wide election, they may not manufacture wine from Georgia products for their own use, even though the sale is prohibited in their country."

The beer bill does not provide for a referendum option, but the liquor bill does.

Mellon Art Gallery Held Taxable Gift

(Copyright, 1935, by the Associated Press)
PITTSBURGH, April 4.—(AP)—The Bureau of Internal Revenue has notified Andrew W. Mellon that it does not consider his projected \$500,000 national art gallery a tax-

exempt organization, the Associated Press learned authoritatively today. A close associate of the former treasury secretary said not only is another tax appeal involving millions of dollars made possible by this ruling, but that the entire project would be in "serious jeopardy" if the decision should be sustained by the courts. He pointed out that most of the \$10,000,000 in paintings which Mellon

turned over to the A. W. Mellon educational and charitable trust for the art gallery would be subject to the gift tax, since they were given after that law went into effect in 1932. In addition, he said there would be a likelihood that in event of Mr. Mellon's death the bureau would attempt to levy the 55 per cent inheritance tax on the entire sum in the institution at the time.

business tomorrow near Cat Island. The naval airplane, carrying a bundle of official business, put out from Miami today and awaited in Nassau tonight instructions for meeting the presidential yacht. The following message was received tonight by Marvin B. McIntyre, secretary to the president, in headquarters at Miami, from Mr. Roosevelt.

"Spent day near various reefs. Very good fishing for triggers and other interesting, beautifully colored species for keeping alive and later for aquarium. At daylight, both ships will proceed north end of Cat Island and expect plane about 11. We would all appreciate any further news concerning Warren Robbins. Mr. Robbins, minister to Canada and cousin of the president, is critically ill in New York of pneumonia."
